How to LOOK UP LABELS for Pesticides Labeled in New York

Go to the website of the NYS Pesticide Product, Ingredient, and Manufacturer System (PIMS): http://pims.psur.cornell.edu/

To look up primary and supplemental labels that are currently registered, you may search by product name, active ingredient or EPA number. From the product search results, click the “NYS” label under the “label” column of the pesticide that you are interested in and from the next page, click “view” of the most recent (by date) primary or supplemental label. Often, but not always, Section 24C Special Local Needs and 2(ee) labels will be available via this search.

If you want to check and see if a pesticide has been deregistered, when searching by product name or EPA number, under “search options”, select “archive”.

To look up Section 18 Emergency labels, from the main search menu, click on “Special registrations”. From this screen, scroll down to the “NYS 2 (ee), FIFRA Section 18” section and click on “NYS Emergency Exemptions (FIFRA Section 18s). A list will come up and you can click on the label directly from this screen to view the label as a pdf. Special Local Needs 24 (c) labels can be looked up under “Special registrations” as well.
