Welcome to the CCE Eastern NY Commercial Horticulture Program!

The CCE Eastern NY Commercial Horticulture Program (ENYCHP) was formed in 2013 and covers 17 counties in eastern NY (Albany, Clinton, Columbia, Dutchess, Essex, Fulton, Greene, Montgomery, Orange, Putnam, Rensselaer, Saratoga, Schenectady, Ulster, Warren and Washington Counties). The team consists of 11 specialists that provide research and educational information to tree fruit, small fruit, vegetable and grape growers. These specialists work closely with Cornell University faculty and other industry staff to provide growers with the most up to date production, marketing and pest management information in the region.

Below is a list of a few benefits you will receive by enrolling in the ENYCHP:

- Special, timely alerts on important pests outbreaks in the area
- Four commodity specific seasonal publications
- The Produce Pages—our flagship winter newsletter
- Access to cutting edge research and Extension Educators expertise
- Information about local and regional meetings
- Discounted event registration (when applicable)
- NYS DEC pesticide applicator recertification credits, Food Safety and special permit trainings offered

To enroll in the ENYCHP, we ask that you fill out the attached form and mail the annual enrollment fee of $65 to Abby Henderson whose contact information can be found on the bottom of the enrollment form. Please note that this enrollment fee only includes email access to our publications and announcements. If you prefer print versions of our publications, please note on the enrollment form that there is an additional charge. If you would like to order a Cornell University Integrated Pest Management Guideline, please see the list on the back of the enrollment form and add that to your check for payment. Guidelines will be mailed to you when they are available for release from the Cornell Bookstore (usually in February).

If you have any questions, please give us a call. We look forward to working with you this year!

Sincerely,

The Educational Staff of the Eastern NY Commercial Horticulture Program
