Field Updates & 'Understanding Fungicide Resistance and How to Avoid It' Podcast

by Teresa Rusinek, CCE ENYCHP and Dr. Margaret McGrath, Cornell University

In this this podcast, ENYCHP vegetable specialist Teresa Rusinek interviews Dr. Margaret McGrath, of Cornell University School of Integrative Plant Science, to discuss the development of fungicide resistance in plant pathogens and steps growers can take to avoid it.

NYS IPM Program Survey

The New York State IPM Program helps people manage pests in ways that minimize environmental, health and economic risks. In addition to expertise in agricultural commodities, our program provides education about 'structural pests,' including rodents. The purpose of this nine question survey is to collect information about current rodent management practices around farms to identify opportunities for outreach.

Corn Trap Counts

Location	ECB - E	ECB - Z	FAW	WBC	CEW
Albany	0	0	0	0	N/A
