

2015 Finger Lakes Greenhouse/High Tunnel Tomato Workshop

March 24, 2015

Finger Lakes Produce Auction

3691 Rt 14A, Penn Yan NY 14527

This course will educate growers on disease and pest management, varieties and marketing issues in greenhouse and high tunnel tomatoes, as well as other vegetables such as leafy greens. Topics such as disease resistant varieties, pest ID, grafting, and attributes of successful growers will be shared. An anticipated 1.75 hours of content is eligible for re-certification credits.
