

2015 Spring Berry Workshops

These workshops will cover pruning efficiency and protocol; spring pest management including scouting for pests and optimizing control strategies. Join us for one of these workshops to learn more about berry culture and how you can minimize the impact of berry pests.

Locations	Dates	Times
Gade Farms , 2479 Western Ave., Guilderland, NY 12009 <i>Questions? Contact Laura McDermott: 518-791-5038</i>	Thursday, April 9	10:00 AM-12:00 PM

These workshops are directed at the commercial berry grower.

Monitoring for pests, designing an effective pest control program, Understanding pruning strategy for bramble crops and blueberries (depending upon site) and general troubleshooting will all be part of this workshop. There will be plenty of time for questions and discussion.

Please pre-register with Marcie Vohnoutka at 518-272-4210 or mmp74@cornell.edu to let us know you are coming. This helps us plan – and also allows us to cancel the class in the event of supremely foul weather. Otherwise it will be held rain or shine!

Call the person listed under the location and date you are interested in attending if you have questions about directions to the farm or if you have a specific topic that you want to address at the class. **When leaving a message include your name and phone number.**
