

Cornell University Cooperative Extension  
Eastern NY Commercial Horticulture Program,  
The Hudson Valley Farm Hub and Local Economies Project  
are proud to announce

## The First Annual Eastern NY Equipment Demonstration Day

Saturday, July 25, 2015  
1:00 pm—5:00 pm (Rain or Shine)  
at the Hudson Valley Farm Hub  
1875 Hurley Mountain Road, Hurley, NY 12443

### This Year's Focus: New and Innovative Cultivation Tools

Come and see some of the most innovative cultivation tools being produced by the world's leading manufacturers in action on a variety of vegetables and field crops!

This is a great opportunity to see new cultivating technologies at work and learn more about the tools these companies offer. Find out if these tools are right for your operation before you purchase them. Not only will we be looking at these units for vegetables, but also field corn and soybeans- so there is something for everyone.

## AGENDA: 1:00 pm—5:00 pm

- **Welcome and Introductions—Jean-Paul Courtens, Hudson Valley Farm Hub and Chuck Bornt, CCE ENYCHP**
- **Basic Principles of Cultivation and Weed Management—Jean-Paul Courtens, Hudson Valley Farm Hub**

*The **Hudson Valley Farm Hub** is a major center for resilient agriculture located on 1,255 acres of prime farmland formerly known as Gill Farms in Hurley, New York. Farm Hub programming is currently under development to include farmer training and continuing education, crop research, and demonstration of innovative farming techniques. An initiative of the non-profit **Local Economies Project**, the Farm Hub was created in 2013 to foster a regional food system that adapts to a changing world through principles and practices that are environmentally sound, economically vibrant and socially responsible.*
