

Oswego County Onion Growers Twilight Meeting

Thursday, June 16, 2016 — 5:00 pm to 7 pm

John Dunsmoor Farm

777½ County Route 53, Oswego, NY 13126

Presented by Cornell Cooperative Extension of Oswego County with generous support from: Seedway, Crop Production Service, Stokes Seeds, Syngenta Crop Protection, Bejo Seed, Hazera Seeds, Bayer Crop Science, and Helena Chemical.

This two hour on farm meeting will provide crucial, in season research to aid onion growers with their management decisions to keep them profitable. The twilight meeting will emphasize strategies to prevent economic loss from onion pests and weeds.

Agenda:

5:00 – 6:00 pm "Highlights from 2015 Oswego County onion herbicide trials" Christy Hoepting, Extension Vegetable specialist will discuss her results from her 2015 herbicide trials and what growers should know to help prevent weed problems. Jonathan Schell, Extension Agriculture Team Coordinator CCE Oswego County will showcase preliminary results from post emergent herbicide applications in his 2016 herbicide trial.

6:00 – 7:00 pm "Controlling Onion Insects " Dr. Brian Nault, Associate Professor Department of Entomology Cornell University New York State Agricultural Experiment Station & Ashley Leach, Graduate Student, Department of Entomology Cornell University will update growers on some of their latest research on onion insects and the pesticides available to control them.

Cost is \$10 dollars and includes dinner. Pre-registration is required. Please return registration form or call in reservation by **Wednesday, June 15, 2016**. If you have questions or if you have any special needs, please call Cornell Cooperative Extension at 315-963-7286.

**2 NYS DEC Recertification Credits have been approved in categories 1a, 10, & 23.
Bring your pesticide ID card.**
