**Certified Supervisors are required to attend the first 30 minutes of training.
Workers in need of special permits vs general pesticide training will need to be identified.**

Just like last year, **Special Permits (SP) will only be issued for 11 specific pesticide labels and SP trainees will have to pass a test.** This will relieve the certified pesticide applicator from "on-site within voice contact" supervision of non-certified pesticide applicators when they are handling federally-restricted-use pesticides for which they hold a Special Permit. The labels that will be covered include **Lorsban Advanced, Endigo ZC, Warrior II with Zeon Technology, Agri-Mek SC, Beseige, Gramoxone SL2.0, Leverage 360, Danitol 2.4EC, Mustang Maxx, Asana XL, and Lannate LV.**

New York DEC notes that the **Special Permit process is intended for farm workers with English language skills that are not adequate to pass the DEC private applicators exam.** All others are encouraged to apply for their private applicators license via taking the certification exam.

Workers requiring **general pesticide training/Agricultural Worker Protection Standard Handler training** who do **not need special permits** are welcome to take the class; they will not be tested and will receive a course participation certificate.

\$20 per DEC Special Permit / General Pesticide Training

Pre-registration required by March 31, 2017.

REGISTER BY MAIL using the form below or CALL Kim Hazel, 585-798-4265 x26, with all details and pay at the door.
