

# Sanitation Open House for Fruit and Vegetable Growers

**Tuesday, November 29, 2022, 9 am - noon**  
**Cornell AgriTech, Food Research Lab**  
**665 West North Street, Geneva, NY 14456**

*Note: Parking available behind the building, off of Collier Drive*

An open house featuring hands-on stations to help jump start and enhance your farm's sanitation program.

Free to attend, but pre-registration is requested. Enjoy a donut and coffee while you chat with farm food safety experts!

## Cleaning Tools

Try out different brushes on various buckets and totes to see that design matters!

## Sanitizer Selection

Not all sanitizers can be used in contact with fresh produce. Learn how to review the sanitizer label to determine if it is the right one for the job!

## Equipment Cleanability

Assess the cleanability of equipment by using the UVM tool to review three different barrel washers or greens spinners.
