

Fire Blight Informational Webinar Series

March 15, June 13, & October 18 2023

7-8pm (EST)

The team leading the national fire blight SCRI grant “Comprehensive Fire Blight Management for the United States” is hosting a webinar series.

Register Now

This multi-state series will address new research on best management practices for fire blight control. You are encouraged to attend these events which will provide cutting edge research recommendations into how to manage fire blight. Each session eligible for some DEC credits (see below for quantities, and bottom of article for direction on how to receive credit).

2023 Webinar Series

March 15 7-8pm - Using biopesticides to help control fire blight (1 DEC credit)

Dr. Ken Johnson, Oregon State University

June 13, 2023, 7-8pm - Pruning and sanitation strategies to reduce fire blight (0.5 DEC credits)

Dr. Tianna DuPont, Washington State University

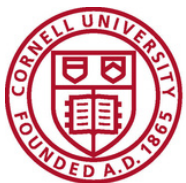

October 18, 2023, 7-8pm - Using weather and environmental conditions to optimize biologicals and biopesticides for bloom production (1 DEC credit)

Dr. Sara Villani, North Carolina State University

To receive credits, you must:

1. Send a photocopy of your applicator ID to Janet at jev67@cornell.edu or 585 797-8368
2. Attend the entire webinar
3. Complete the Qualtrics surveys at the beginning and end of the meeting, including entering your name and DEC ID number exactly as it appears on your license.
