The Eastern New York Commercial Horticulture Program (ENYCHP) is one of the premier Cornell Cooperative Extension regional agricultural programs in New York.

- **Pest Management:** Understanding pest biology and effective control strategies, identifying new pests and pest alerts
- **Cultural Practices:** Educating growers on nutrient management, yield enhancement, and season extension
- **Soil Health:** Educating growers on cover crops, reduced tillage, reduced compaction, increased organic matter, and improved soil health
- **Business Management:** Resources and education for growers to help manage finances, labor, adapt to changing markets and many other aspects to running a successful farm
- **Variety Evaluation & Market Development:** Unbiased results from local on-farm trials and marketing education on promoting local foods and new crops
- **Food Safety:** Research and education to help growers meet Quality Assurance and Food Safety Certification Standards and Good Agricultural Practices (GAPs)
