120count, 24"
bin

Autumn Pearl

- Fast maturing. 90 – 100 days.
- 4-6 lbs, Cannonball class, tall-round shape
- 110 – 120 count in 24" bin or 140 – 150 count in 36" bin
- Clean attributes - dark color, great handle, distinct ribbing
- Powdery Mildew Tolerant

Olympus

NEW

Olympus

- 25 – 35 lbs, Rhea or smaller Cronus type
- Largely 30 count
- Better setting ability than Rhea or Cronus
- Long handle with strong flare
- Powdery Mildew Tolerant

Adonis NEW

- Considered an alternative to Tallon with its tall shape
- 25-40 lbs
- Distinctly long 9-10" handle
- Clean shape: smooth shoulder. This is a true tall and not a "barrel" shape
- Lighter setting and can be later to mature in unfavorable conditions
- Powdery Mildew Tolerance

Griffin NEW

- 25 – 40 lbs,
- Specialty shape- true upright, barrel shape with narrow shouldars
- Long 9" handle
- Seems to work best good ground and good conditions

Carbonado Gold

- 40-50 count
- Long lasting handle integrity
- Clean appearance with smooth shoulders
- Powdery Mildew Tolerant

Bayhorse Gold

- 40 count
- Strong handle integrity
- Clean appearance with smooth shoulders
- Powdery Mildew Tolerant

Pumpkins

Avalanche **NEW**

- 5-8 lbs
- Smaller Moonshine type
- First look for 2024 – small amounts of introductory seed
- Not in catalog

Abominable NEW

- Largest white available – 15 to 20 lbs.
- 40 count bins
- Harvest the same way you would harvest Moonshine
- Powdery Mildew Tolerance
- Prolific producer!

White Lightning NEW

- Larger Moonshine type, 8 – 16 lbs (Moonshine 5 to 12 lbs)
- In catalog
- Harvest the same way you would harvest Moonshine

White Gold NEW

- Improved Cotton Candy type – meaning improved handle; 8 lbs
- Harvest the same way you would harvest Moonshine

Oooky NEW

- Flatter Casperita type
- Size similar to Casperita, 0.5 lb
- Holds white color well
- Powdery Mildew Tol.

Snowdrop NEW

- Mini white, 1 – 2 lbs
- Everyone's favorite
- Holds white color well

WLight

WGold

Sdrop/Icicle

Blanco

Mshine

Abom

Flat Stacker

Flat Stacker

- Use as an alternative for Flat White Boer
- Better quality than FWB; cleaner fruit shows much less scarring/checking
- You will see a range of fruit sizes like you can see with FWB, 8-25 lbs
- Disease: PM, ZYMV, PRSV, CMV

Star 7001

Star 7001

- Clean fruit with less scarring
- Semi-bush/restricted vine
- Green stem, hard
- New for Seedway 2024, not listed in 2024 catalog

7001

Kettle Corn

- Average Size – 15-25 lbs
- 95 DTH
- Semi Bush habit
- Fruit are covered with heavy warts with buttery yellow background
- Size – 12" x 10"
- Moderate Powdery Mildew tolerance

**Outstanding Seed
Company LLC.
Jamie Hoffman
800-385-9254**

Summer Sky

- Average Size – 19lbs
- 100 DTH
- Vine type
- Large, flat, ribbed fruit, stacker type
- Reddish peach color with blue marbling and/or flecking
- Size – 12" x 5"
- Strong Powdery Mildew tolerance

Foggy Morning

- Average Size- 22 lbs
- 100 DTH
- Vine habit
- Mostly dark slate blue color
- Large, flat deeply ribbed stacking type
- Size – 6” x 14”
- **Strong Powdery Mildew tolerance**

Green Eggs n Ham

- Average Size- 30 lbs
- 100 DTH
- Vine habit

Large, flat, ribbed fruit with variable sea-foam green and salmon orange marbling to solid dark forest green or solid medium blue.

- Size – 7” x 15”
- **Strong Powdery Mildew tolerance**

Wagon Wheel

- Average Size- 20 – 40 lbs
 - 100 DTH
 - Vine habit
- Large, flat, ribbed fruit with bright orange color
- Size – 7” x 16”
 - **Strong Powdery Mildew tolerance**
