## Apple IPM for Beginners

A 42-page guide for new apple growers to protect apple orchards from pests, in fact sheet format. This publication has been uploaded on the Cornell Fruit website, <https://blogs.cornell.edu/treefruit/ipm/apple-ipm-for-beginners/>, and the <http://lof.cce.cornell.edu/>. It is available as a free download (.pdf). Additional full color printed copies can be ordered from CCE-Lake Ontario Fruit Program, 12690 Rt. 31, Albion, NY, 14411. Please submit the order form below with a check payable to “Cornell Cooperative Extension” for \$15 each which includes shipping.

This series of fact sheets [.pdfs] will help you address the major apple pests, but does not guarantee perfect fruit. These fact sheets and scouting guides are a compromise between the most accurate, complex information researchers have to offer and the amount of information a beginner can take in. Read the first four chapters carefully to start this new venture. Then follow the Scouting Calendar as apple stage of growth advances week-by-week. “Apple IPM for Beginners” was partially funded by Federal Smith Lever Funds.

### Apple IPM for Beginners Order form:

Name \_\_\_\_\_

Address \_\_\_\_\_  
\_\_\_\_\_

Acres planning to plant or planted \_\_\_\_\_

County where you live or farm \_\_\_\_\_

Email address \_\_\_\_\_

Phone \_\_\_\_\_

# of copies \_\_\_\_\_ X \$15 (for one or \$12 each for multiple copies) = Total \_\_\_\_\_

Please make check payable to “Cornell Cooperative Extension – LOF”  
and send with order form to: CCE-LOF, 12690 Rt. 31, Albion, NY 14411.
